PRACTICES & POSSIBILITIES

Series Editors: Nick Carbone and Mike Palmquist

Series Associate Editors: Katie McWain, Karen-Elizabeth Moroski, and Aleashia Walton

The Practices & Possibilities Series addresses the full range of practices within the field of Writing Studies, including teaching, learning, research, and theory. From Joseph Williams' reflections on problems to Richard E. Young's taxonomy of "small genres" to Adam Mackie's considerations of technology, the books in this series explore issues and ideas of interest to writers, teachers, researchers, and theorists who share an interest in improving existing practices and exploring new possibilities. The series includes both original and republished books. Works in the series are organized topically.

The WAC Clearinghouse, Colorado State University Open Press, and University Press of Colorado are collaborating so that these books will be widely available through free digital distribution and low-cost print editions. The publishers and the series editors are committed to the principle that knowledge should freely circulate. We see the opportunities that new technologies have for further democratizing knowledge. And we see that to share the power of writing is to share the means for all to articulate their needs, interest, and learning into the great experiment of literacy.

OTHER BOOKS IN THE SERIES

The WAC Clearinghouse supports teachers of writing across the disciplines. Hosted by Colorado State University, and supported by the Colorado State University Open Press, it brings together scholarly journals and book series as well as resources for teachers who use writing in their courses. This book is available in digital formats for free download at wac.colostate.edu.

Founded in 1965, the University Press of Colorado is a nonprofit cooperative publishing enterprise supported, in part, by Adams State University, Colorado State University, Fort Lewis College, Metropolitan State University of Denver, University of Colorado, University of Northern Colorado, Utah State University, and Western Colorado University. Chapter 1. An Introduction to Coding Streams of Language 3

 Some Preliminaries. 3

 Our Core Commitments 9

 Using This Book 13

 Our Aspirations. 22

 Selected Studies Using Coding 22

 For Further Reading. 23

Chapter 2. Designing the Analysis. 25

 Writing Memos 25

 Designing the Analysis. 28

 Focusing on a Phenomenon 30

 Constructing a Descriptive Framework 34

 Building in Contrasts for Comparison 40

 Sampling Streams of Language. 41

 Choosing a Sampling Strategy 47

 Acquiring the Data. 50

 Cleaning the Data. 56

 Setting Up The Data 62

 Setting Up a Data Table 64

 Selected Studies Using Sampling 65

 For Further Reading. 65

Chapter 3. Segmenting the Data 67

 Introduction to Segmenting 67

 Basic Units of Language. 73

Units in Conversation	82
Units in Text	86
Other Selective Units	88
Segmenting the Data	93
Moving the Segmented Data	103
Issues in Segmenting	107
Selected Studies Using Segmentation	110
For Further Reading	111
Chapter 4. Coding the Data	113
Concepts in Coding	113
Coding the World of Discourse	115
Getting Ready to Code	119
Deciding on a Coding Framework	124
Using a Coding Scheme	125
Revising a Coding Scheme	127
Techniques for Inspecting Coding	135
Techniques for Automated Coding	138
Nested Coding	148
Enumerative Coding Schemes	148
Selected Studies Using Procedural Coding	152
Selected Studies Using Automated Coding	152
For Further Reading	153
Chapter 5. Achieving Reliability	155
Introduction to Reliability	155
Measures of Intercoder Agreement	160
Selecting Data for Second Coding	172
Managing the Second Coding	174
Calculating Item-by-Item Agreement	177

Contents

Revising Your Analytic Procedures 194

Finalizing Reliability. 200

Selected Studies Reporting Reliability 201

For Further Reading. 201

Chapter 6. Seeing Patterns of Distribution 203

Introduction to Patterns of Distribution 203

Building a Frequency Table 208

Graphing Distribution 212

Interpreting Patterns of Distribution 215

Refining Patterns across the Built-In Contrast 222

Refining Patterns Across Codes 231

Limitations on Combining Codes 233

Selected Studies Using Frequency Distributions 234

For Further Reading. 234

Chapter 7. Exploring Patterns Across Dimensions 235

Dimensions 235

Contingency Tables 238

Graphing Dimensions 245

Characterizing Dimensions. 255

Checking Patterns across Contrast. 261

Checking Patterns across Dimensions. 266

Checking Patterns across Data Streams. 271

Putting It All Together 275

Selected Studies Exploring Patterns across Dimensions 277

Chapter 8. Following Patterns over Time 279

Time 279

Indexing in Time 280

Aggregating in Time. 292

Selected Studies Examining Temporal Patterns	307
For Further Reading.	307
Chapter 9. Evaluating Significance	309
Significance and Surprise.	309
Significance Tests for Coded Verbal Data	313
Assessing Your Data	321
Choosing Your Significance Test(s)	323
The χ^2 Test of Goodness of Fit	327
The χ^2 Test of Homogeneity	332
The χ^2 Test of Independence	339
One-Factor Multinomial Logistic Regression.	345
Two-Factor Multinomial Logistic Regression	352
For Further Reading.	359
Chapter 10. Writing the Analysis.	361
Sorting	362
Reflecting.	366
Ordering.	367
Detailing.	368
Areas for Detailing	371
Locating Detail	381
Writing the Draft	385
Selected Studies Using Details	391
For Further Reading.	391
