KEYWORDS IN DESIGN THINKING
A LEXICAL PRIMER FOR TECHNICAL COMMUNICATORS & DESIGNERS
Foundations and Innovations in Technical and Professional Communication

Series Editor: Lisa Melonçon
Series Associate Editors: Kristin Marie Bivens and Sherena Huntsman

The Foundations and Innovations in Technical and Professional Communication series publishes work that is necessary as a base for the field of technical and professional communication (TPC), addresses areas of central importance within the field, and engages with innovative ideas and approaches to TPC. The series focuses on presenting the intersection of theory and application/practice within TPC and is intended to include both monographs and co-authored works, edited collections, digitally enhanced work, and innovative works that may not fit traditional formats (such as works that are longer than a journal article but shorter than a book).

The WAC Clearinghouse and University Press of Colorado are collaborating so that these books will be widely available through free digital distribution and low-cost print editions. The publishers and the series editors are committed to the principle that knowledge should freely circulate and have embraced the use of technology to support open access to scholarly work.

Other Books in the Series

Kate Crane and Kelli Cargile Cook (Eds.), User Experience as Innovative Academic Practice (2022)
Contents

Acknowledgments .......................................................... vii
Introduction to Design Thinking & Keywords. ......................... 3
    Jason Tham and Luke Thominet

PART 1: THE DESIGN THINKING PHASES .................................. 19
1. Empathy ................................................................. 21
    Scott Wible
2. Problem Definition ................................................... 25
    Scott Wible
3. Ideation ................................................................. 31
    Jennifer Sano-Franchini
4. Rapid Prototyping .................................................... 37
    Krys Gollihue
5. Testing ................................................................. 41
    Bradley Dilger
6. Iteration ............................................................... 45
    Emma J. Rose and Cody Reimer

PART 2: CONCEPTS AND APPLICATIONS ................................. 49
7. Affordances ........................................................... 51
    Devon Cook
8. Collaboration .......................................................... 55
    Matthew A. Vetter
9. Constraints ............................................................. 59
    Jeff Naftzinger
10. Contextual Inquiry ................................................... 63
    Thomas M. Geary
11. Creativity ............................................................. 67
    Emily Wierszewski
12. Critical Making ....................................................... 73
    Shannon Butts
13. Design Ethics ........................................................ 79
    Rachael Sullivan
